INTRODUCTION

"You shall Not Pass!"

"What's in the box?"

"I love Lamp!"

It's a game where you can shout out a line
you've always wanted to say out loud.

Victory goes to the player who shouts the line
the fastest and most accurately!

Choose your favorite famous lines based on the
card's theme!

WHEN CHOOSING A LINE...

Each card has a theme
written on it. Choose a
line that fits the theme!

If nothing comes to mind,
you can use the sample lines
provided on the card. But
it's more fun to come up
with your own!

For regular cards, you only need to decide on a line.
However, if a "Famous line with a Pose" card is
revealed, you must decide on both a line and a pose.
When the second 'Pose' card appears, you must shout
the line while striking the pose you came up with earlier!

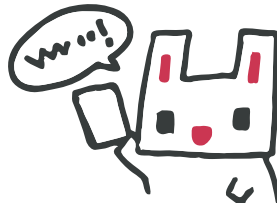

GAME SUMMARY:

1) Lay all the cards face down on the table.

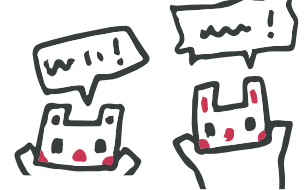

2) Reveal one card.

If the card revealed is
the first of its type...

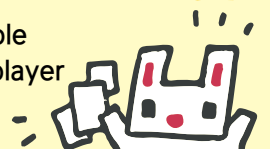

the player who revealed
it chooses a line that fits
the card's theme. Then,
leave the card face up.

If the card revealed has
already had a line chosen...

shout the line quickly and
accurately! The first player to
shout the correct line takes
the card. They also take all
other cards of that type.

3) When all the cards on the table
are gone, the game ends! The player
with the most cards wins!

GAME

준비

After thoroughly shuffling all the cards, lay them out face down on the table. Determine who will start first.

1) REVEAL ONE CARD

Choose one face-down card and flip it over to reveal its face.

When flipping, make sure everyone can see it by turning it from the inside out.

2) SET A LINE FOR THE CARD

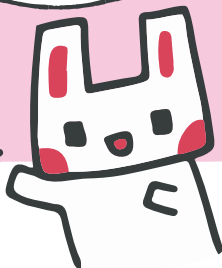

The person who flipped the card thinks of a quote that matches the theme of the card and shares it with everyone.

There are some reference quotes pre-written on the card related to its theme.

It's even better if you come up with a line that isn't on the card. Think of a cool line!

Hmm... then I'll go with, "Give me everything from here to there!"

Once the quote is decided and shared with everyone, place the card face up in its original position.

3) NEXT PLAYER REVEALS A CARD

The next player, going clockwise, reveals another face-down card. If the card revealed is a new type of card that hasn't been seen before, just like in step 2), they must set a line for it.

"She sells sea shells"

If the revealed card is one for which a quote has already been set, everyone must shout out the quote for that card!

The fastest and most accurate person to shout will receive that card, as well as all the publicly revealed cards of the same type. The collected cards should be placed face up in front of the player so everyone can see.

Players can collect all the same type of cards that are revealed face up.

Each player may shout only once for each revealed card.

For cards with line, the second or third person to shout will use the same line.

If no one remembers the line, the last person who revealed a card gets to set a new line.

Then, the turn passes to the next player. If a third card of the same type is revealed, there's an opportunity to collect three cards at once!

When the last face-down card is revealed, the first person to shout out the line for that card receives all the remaining revealed cards as a reward.

If everyone fails to shout the line for the last revealed card, then no one gets to collect any cards.

END OF THE GAME

Repeat step 3) until the last card is revealed; the game ends! The player with the most collected cards wins.

Great job sharing fantastic lines. Congratulations!

Let's all say cool and impressive lines together!
